

**Laflamme**<sup>®</sup>

**WOOD** doors and windows—  
a timeless choice!

[www.laflamme.com](http://www.laflamme.com)

We build our products for a special client...you!

# ENJOY the view

Nothing's more comfortable than a home fitted with LAFLAMME windows and doors. Built to the highest standards with innovative technology, they make your home an oasis of comfort and security year round.

With virtually unlimited window and door styles plus a full array of options and accessories, LAFLAMME is your partner in flexible home design.

Never compromise on the place where you live and love—choose LAFLAMME.

## And then there WAS LIGHT...

Light surrounds us. It is our portal to the world, our way of adding drama to rooms and filling homes with warmth.

LAFLAMME understands how important light is to your home. That's why our products capture as much light as possible, letting it cascade and sparkle through an array of shapes and patterns to make any room a work of art. At LAFLAMME, our windows and doors aren't just functional—they're things of beauty.

## Committed to QUALITY

We use only the finest materials in our products—superb craftsmanship is at the heart of everything we do. Our experts are devoted to building the perfect window and door. Our in-house research center is at the forefront of new materials and manufacturing techniques. And rigorous quality control means our products meet the highest standards for both the Canadian and US markets.

**THIS IS OUR ISO 9001 COMMITMENT.**

NEVER compromise on  
the place where you live and  
love—choose LAFLAMME.

## Blending Beauty and CRAFTSMANSHIP

### LIGHT. STYLE. CHARACTER.

Windows and doors can add so much to your home. They protect you from the elements and serve as lasting symbols of taste and elegance. Well-designed windows and doors transform an ordinary home into the extraordinary, the envy of neighbors and passersby.

All LAFLAMME products marry style with function—they're beautiful from the outside in. Choose convenient features like casement and double-hung windows that are easy-to-clean from the inside. Opt for aluminum or vinyl cladding and a wide variety of styles, shapes, and colors without ever compromising on quality—your home deserves no less.

Your windows and doors may be with you for life make sure you choose the best.

## A LOOK for any HOME

Whatever your home project is, LAFLAMME has a product line that's right for you. Simply ask our knowledgeable customer support team about the wide array of options available—LAFLAMME has a look for any home or interior decor. Whether you're building a new home, remodeling, or replacing your old windows and doors, we have the choices and flexibility to give you free rein in home design.

# Beautifully Durable

With its rich, inviting warmth and superior thermal insulation, wood is a natural choice for a beautiful home. LAFLAMME builds on over 60 years of experience in manufacturing superior wood products for lasting beauty both inside and out.

At LAFLAMME, our naturally beautiful wood windows and doors start with select clear pine that is kiln dried and treated to prevent shrinking, swelling, and splitting. Strong and durable, our products come in both clad and non-clad versions. For maintenance-free exteriors, choose vinyl or aluminum cladding. It resists fading, chalking, and corrosion and can fit seamlessly into any exterior design with our custom color matching system. For a warmer, more organic look inside and out, choose our all-pine products, which you can paint or stain to match any interior or exterior decor. Whatever you decide, rest assured that fine craftsmanship, elegant styling, and precise detailing are guaranteed.

Wood outweighs other materials in aesthetics beauty and for structural purposes. Make sure you look at the amount of wood in our products; after all, cladding is only an option added to our true wood window.

4

7 STANDARD COLORS  
available for our  
WOOD ALUMINUM  
extrusion clad windows

Possibility of matching any other color sample.

*Colors shown may not be exact and should  
be used for planning purposes only.*

## HERITAGE

# HERITAGE

The Heritage wood casement window adds warmth to any room. Carefully detailed, its elegant profile and unique structural design let more light into your home and offer a better view of the world outside.

Like all LAFLAMME products, the Heritage is built to perform. Robust, durable hardware means it opens and closes easily and shuts tightly against the elements. For total comfort and convenience, the Heritage features a warm-edge spacer in all glazing units and a sash that opens 90° for easy cleaning from inside.

The Heritage is available in two styles:

- All wood
- Wood with aluminum extrusion cladding

## HISTORIA

# HISTORIA

Our Historia awning wood window is identical to our Heritage casement window but is hinged at the top of the sash for maximum ventilation.

LAFLAMME wood casement windows are also available in bay or bow styles.

**New**

"Encore" hardware is now standard on Heritage and Historia windows.

Bronze hardware and screen are standard on Heritage and Historia

White hardware and screen upon request without additional charge

Bright brass hardware and screen (as an option)

- Factory-installed jamb extension
- Available in architectural and bay & bow styles
- Clear pine for easy staining
- Multipoint locking mechanism

\* See page 17 for more information.

HARMONY

# HARMONY

The Harmony double-hung wood window combines classical appeal with convenience. Meticulously designed to give your home the elegance only wood provides, the Harmony is in an aesthetic category all its own.

The following unique features are your reward when you choose the Harmony:

- Timeless bronze hardware
- Beige jamb liner to match pine interior
- Flush-mounted sash lock and latches for improved appearance
- Attractive fingertip latch release for easy operation and greater structural performance

The Harmony is available with a hands-off aluminum extrusion clad exterior. And like all LAFLAMME windows, it is designed for longlasting ease of use. Spring-loaded latches make the sashes easy to tilt in for easy cleaning. A coil balance system within the jamb liners means the sashes slide almost effort-free. Attractive upper and lower glazing stops serve as handles for simple opening and closing.

Rounding out the Harmony's impressive list of features is its energy efficiency. With high-performance fin-seal weatherstrips along the window edges, triple weatherstripping at the meeting rail, and PVC jamb liners with weather barrier compression foam, the Harmony seals your home tightly against any kind of weather.

# Beauty and Design That Lasts

Patio doors take a lot of punishment. Opened and closed several times a day and exposed to the four seasons, your patio doors must stand up to any kind of treatment.

LAFLAMME wood patio doors offer you the natural beauty of wood backed by advanced technology for years of trouble-free use.

## LEGEND RIVIERA

Our Legend and Riviera sliding wood patio doors are the perfect blend of innovation, attention-getting design, and superior construction techniques and materials. And since they slide instead of swing in to open, they blend subtly into any room if space is at a premium.

The Legend features smaller rails and stiles (2 1/2") to let more light into your home for a more open, airy feel. The Riviera patio door offers you a more traditional, timeless look with 4 1/2" rails and stiles.

Wide variety of hardware finishes (bright brass, antique brass, brushed chrome, etc.)

LEGEND

RIVIERA

## STANDARD FEATURES

The Legend and Riviera come in natural pine. The standard height of our doors is 6'9", but they are also available in 8' for an even more impressive view of your surroundings. Both doors are weathertight and equipped with tandem rollers and adjustable ballbearing steel wheels to ensure durability and smooth operation. What's more, core-laminated sash panels help eliminate warping.

For added elegance, brass hardware is standard on the Riviera.

## OPTIONS

- Press-fit aluminum cladding on door frame in 7 standard colors
- Multipoint hardware
- High-performance glass\*
- Factory-installed jamb extension
- Large selection of grille and SDL patterns
- Security foot lock
- Keyed lock

\* See page 17 for more information.

# HORIZON

Elegance and tradition are the hallmarks of our Horizon garden door. With a door that swings in to open, the Horizon features the same attention to detail and superior materials of other LAFLAMME products.

Looks count for a lot. That's why the Horizon has high-quality brass hinges and hardware in an array of finishes. 4 1/2" rails and 6 1/2" stiles ensure the perfect balance of glass and wood.

Choose from three models for a look that's right for your home:

- 6 9/16" Frame
- Jamb-hinged: Garden door
- Post-hinged: Garden door
- Two-panel-hinged: French door

Beyond the appealing aesthetics of the Horizon you'll find the same LAFLAMME devotion to quality and innovation. Four brass hinges are standard on each door to eliminate sagging and offer smooth operation. A standard multipoint system locks the door at the top, middle, and bottom of the panels for maximum security. And, like all LAFLAMME doors, the Horizon is weathertight, energy-efficient, and easy to open and close.

12

## HORIZON

Superior  
PERFORMANCE

MULTIPOINT  
HARDWARE  
(STANDARD)

Our unique multipoint system secures the door at the head, jamb, and sill.

## STANDARD FEATURES

The Horizon comes in natural pine. Its standard height is 6'9", but it is also available in 8' for an even more impressive view of your surroundings. For weather resistance, the Horizon includes a self-draining. What's more, the Horizon features a lever, deadbolt hardware system and multipoint locking system for maximum security.

## OPTIONS

- Press-fit aluminum cladding on door frame in 7 standard colors
- High-performance glass\*
- Wide variety of hardware finishes (bright brass, antique brass, brushed chrome, etc.)
- Factory-installed jamb extension
- Large selection of grille and SDL patterns

\* See page 17 for more information.

# BAY & BOW Windows

LAFLAMME bay windows flare gently outwards to make any room feel bigger and brighter. Bow windows are elegantly designed to give rooms a subtle sense of shape and contour. Our bays and bows come with LAFLAMME-standard features and options with the additional choice of factory-installed head and seat boards.

# ARCHITECTURAL Windows

Architectural windows are at the heart of the LAFLAMME reputation. Held up to the same rigorous standards as our other windows, they come in a virtually unlimited variety of shapes to give you total flexibility in all your home design projects. Choose from half circle, trapezoid, elliptical, rake-head, segmental, radius top, transom, and more—the possibilities are endless.

Your home is already unique. Opt for LAFLAMME architectural windows and make it one-of-a-kind beautiful.

For the  
ultimate  
IN ELEGANCE

14

## Grilles

Our timeless Georgian-style grilles add beauty to your windows while also making them easy to clean and maintain.

For the ultimate in elegance, choose a pencil bar grille in a range of colors and patterns. If you want to change your home's character, opt for a removable wood grille and paint it to match existing windows or cladding.

Round out your home's appeal with a 7/8" or 1 1/4" wood muntin bar. Available in a wide range of attractive designs, our wood muntin bar simulates divided lites to give your home a unique look and increase its energy efficiency. Add a spacer bar in the glass unit between the SDL bars for a more traditional feel.

## SDL BARS

# Streamlined and AFFORDABLE

## ECONO- EXCEL

The streamlined design of our Econo-Excel sliding window gives you LAFLAMME durability at a very affordable price. Both sashes open easily for excellent ventilation, and compression foam backing in extruded vinyl head tracks allows the sash to be removed for cleaning and acts as a weather barrier.

Every Econo-Excel window has a sturdy center sash lock that opens from the inside.

16

### FEATURES and BENEFITS

- Kiln-dried, preservative-treated wood frame components
- Superior weatherstrip system
- Warmedge glazing unit

### OPTIONS

- Factory-installed jamb extension
- High-performance glass (Excel)\*
- Georgian-style sealed grille (Excel)
- Interior vinyl cladding

\* See page 17 for more information.

# Our new **COLLECTION +...** of Low-E thermal units!

## **LIFETIME WARRANTY – STAR+**

This Low-E thermal unit was designed to maximize the performance of our windows while providing maximum energy efficiency under the Energy Star program, leading to lower energy consumption for Canadian homeowners when choosing these windows.

## **WARRANTY 15 YEARS – R+**

This Low-E thermal unit maximises R value while minimising solar gain for your clients looking to buy windows with the highest R rating.

Sometimes it's what you don't see that makes all the difference. Inside the glazing units of each window and door is a hidden benefit. Investing in superior windows and doors pays off down the road in lower energy bills, furniture and carpet not faded by ultraviolet light, and a home that's comfortable year round.

## Outstanding PERFORMANCE

LAFLAMME means reliability—we believe that only the most stringently tested windows and doors are suitable for your home. Every window and door undergoes a battery of quality control tests to ensure you get total satisfaction year after year.

The National Fenestration Rating Council (NFRC) was formed to establish a uniform method for calculating and testing the thermal performance of windows and doors.

Intense quality control is an integral part of the entire manufacturing process: this is what ISO 9001 certification is all about. Sometimes it's what you don't see in the product that makes the difference.

## An Iron-Clad WARRANTY

All LAFLAMME windows and doors are ISO 9001-certified, so we're proud to offer a warranty that equals their longlasting durability. Our warranty—which covers all components of our products—attests to the confidence we have in our innovative manufacturing techniques, the dedication of our employees, and the superior quality of our materials.

But our warranty is just part of our commitment to you, your home, and the comfort of your loved ones. When you choose LAFLAMME, you make a lifetime investment in trouble-free products backed by helpful, reliable customer support. Only LAFLAMME gives you the style and look you want.

For additional details on warranty, please consult our "Warranty" brochure available at your dealer.

So go ahead,  
enjoy  
the VIEW.
